Proposal 8 — Referral and Reseller Partnership 25

Proposal 9 — Payroll for a growing tech startup (trial pilot) 27

Proposal 10 — Phased payroll rollout for a manufacturing company 29

How to use these proposals

This pack contains **ten complete proposal samples** for the most common types of client. Each one is written for a **fictional organisation**; replace the name, headcount, needs and dates with your prospect's real details. The structure is always the same, so a prospect who reads one recognises the next:

Section	Purpose
1 Our understanding	Shows you listened. Mirror the prospect's own words from the discovery call.
2 Proposed solution	Maps their needs to specific features in the system.
3 Who would use it	Shows roles and access — reassures owners about control and privacy.
4 Implementation plan	Makes starting feel easy: trial, import, parallel run, go-live.
5 Investment	Published plan prices and savings; recommended option highlighted.
6 What success looks like	Outcomes in the prospect's own language. Avoid invented statistics.
7 Terms and assumptions	Trial, payment, refund, data, statutory note, support.
8 Next steps and acceptance	A clear action and a signature block.

The ten samples

#	Sample client	Sector	Staff	Plan and recommended billing
1	Lagos Fresh Mart Ltd	Retail / trading	18	Essential — yearly
2	Grace Assembly Church	Church / ministry	34	Enterprise — every 6 months
3	Bright Future Academy	Private school	46	Enterprise — yearly
4	Hope Horizons Foundation	NGO	58	Enterprise — yearly
5	CarePoint Medical Centre	Clinic / hospital	41	Enterprise — every 6 months
6	Palmview Suites & Resort	Hospitality	82	Enterprise — yearly
7	SwiftHaul Logistics	Logistics / transport	120	Enterprise — yearly
8	Adeola & Partners	Accounting firm (partnership)	—	Referral / reseller model
9	NovaByte Technologies	Tech startup	12	Essential — monthly (trial pilot)
10	Kingsley Foods & Beverages Ltd	Manufacturing	260	Enterprise — yearly, phased rollout

Before you send any proposal

1. Replace every fictional detail and all **[Date]** and bracketed fields. **2.** Check the plan prices against the live Pricing page — prices can change. **3.** Keep the statutory-calculation note in the terms until the 2026 PAYE update is live. **4.** Do not add statistics, customer names or testimonials you cannot prove. **5.** Send as PDF and follow up within 48 hours.

Customising in five minutes

1. Copy the closest sample; change the client name and headcount.
2. Rewrite section 1 using the prospect's own words.

3. Keep only the modules they care about in section 2.
4. Choose the plan by headcount and users (Essential: up to 20 employees and 1 Admin + 3 Users; otherwise Enterprise).
5. Offer two billing options and recommend yearly — it saves the most.

Price reference

	Monthly	Every 6 months	Yearly
Essential	₦15,000	₦80,000 (save ₦10,000)	₦150,000 (save ₦30,000)
Enterprise	₦35,000	₦190,000 (save ₦20,000)	₦360,000 (save ₦60,000)

PROPOSAL 1 • ESSENTIAL PLAN • SAMPLE (FICTIONAL CLIENT)

Prepared for: Lagos Fresh Mart Ltd (sample)

Prepared by OKV Technology Consults | Date: [Date] | Valid for 14 days

Proposal 1 — Payroll and HR for a growing retail business

1. Our understanding of your situation

Lagos Fresh Mart operates three stores with 18 staff on fixed salaries plus overtime and occasional bonuses. Payroll is prepared in Excel by the accountant, and payslips are printed one by one. Month-end takes a long weekend and any correction means starting again.

- Payroll takes too long and depends on one person's spreadsheet.
- Staff loans and leave are tracked in notebooks and WhatsApp.
- The owner wants payslips for everyone and a record of what was paid each month.

2. Proposed solution: OKV Nigeria Payroll & HR Management System

We propose the **Essential plan** (up to 20 employees, 1 Admin + up to 3 staff Users). Below is how the system addresses each of your needs.

Your need	What the system provides
Fast, accurate payroll	Gross, pension, NHF, PAYE and net pay calculated for every employee from one screen; overtime, bonus and loans flow in from Payroll Input.
Payslips for everyone	One-click payslips for a person, a department or the whole company — print, download or email.
Loans and leave in one place	Loan and leave registers; staff loan balances visible to the staff member.
A permanent record	Confirm & Archive locks each month's figures; reports and backups on demand.
Works when the network doesn't	Offline-first: store managers can keep working and everything syncs later.

3. Who would use it, and what they would see

Person / team	Role in the system	Access
Owner (Admin)	Admin	All 21 tabs incl. Users, Backup, Subscription
Accountant	Payroll Officer	Payroll, payslips, statutory registers, reports
Store managers	HR Officer	Employees, BioData, leave
Sales staff (optional)	Self-Service	Own payslip, loan and leave only

4. Implementation plan

When	Activity	Outcome
Day 0	Start trial; set company details, month and statutory rates.	Account live
Day 1–2	Import the 18 employees from Excel; add BioData.	Staff records complete
Day 3–5	Run this month's payroll in parallel with Excel; compare; archive.	Confidence in figures
Day 7	Review with the owner; choose billing option.	Go-live decision
Week 2	Train accountant and managers (60 minutes).	Team independent

We assume Lagos Fresh Mart can supply a staff list (name, department, bank details and pay components) in Excel; we will help convert it to the import format.

5. Investment

Option	Billing	Amount	Per month equivalent	You save
Essential A	Monthly	**₦15,000**	₦15,000	—
Essential B	Every 6 months	**₦80,000**	₦13,333	₦10,000
Essential C (recommended)	Yearly	**₦150,000**	₦12,500	₦30,000

Prices are the published rates at the date of this proposal and are in Nigerian Naira. There are no setup fees for the subscription.

Optional services (quote separately): on-site or remote staff training; extended data-entry assistance.

6. What success looks like

- Payroll prepared in a fraction of the time, from one source of truth.
- Every payslip consistent and printable in seconds.
- Loans and leave visible and up to date.
- A month-by-month archive the owner can open at any time.

7. Terms and assumptions

- **Free trial.** Lagos Fresh Mart may start a 7-day free trial (no card required) and run payroll with real data before committing.
- **Payment.** Subscriptions are paid by bank transfer to the account shown in the app (Upgrade & Subscription), with a screenshot submitted for confirmation. Your plan activates once payment is confirmed.
- **Money-back guarantee.** If the service is not right for you, tell us within 30 days of your first payment for a full refund by bank transfer (typically 5–10 business days).
- **Renewal.** Renewals are by manual bank transfer; reminder emails are sent before the end of each period. Pricing shown is per billing period.
- **Data.** Your organisation's data is kept separate from other organisations' data. You can download a full backup at any time and request export or deletion of your data in line with the Privacy Policy.
- **Statutory calculations.** PAYE, pension, NHF and life-assurance calculations use the rates and bands configured in the system. Because Nigerian PAYE rules changed on 1 January 2026, we recommend your accountant verifies PAYE on each pay run until the system's 2026 tax update is confirmed live. *(Remove or update this clause once the update ships.)*
- **Support.** Essential includes email support. Enterprise includes priority support and dedicated onboarding assistance.

8. Next steps

1. Confirm the plan and billing option above.

2. We create your account and start the 7-day trial with you, and import your staff list together.
3. Run one payroll side by side with your current method, archive it, and review the results with us.
4. Subscribe by bank transfer and submit the receipt in the app; your plan is confirmed, and we train your team.

PROPOSAL 2 • ENTERPRISE PLAN • SAMPLE (FICTIONAL CLIENT)

Prepared for: Grace Assembly Church (sample)

Prepared by OKV Technology Consults | Date: [Date] | Valid for 14 days

Proposal 2 — Staff records and payroll for a church

1. Our understanding of your situation

Grace Assembly has 34 paid staff: pastors, administrators, ushers' coordinators, choir directors, security and support staff. The church administrator maintains records in several spreadsheets and prints payslips manually. The treasurer wants clear, consistent records for reviews by the board.

- Staff records are scattered; allowances and deductions differ by role.
- Some workers have loans or salary advances that need tracking.
- Leadership wants confidential payslips and simple reports for the board.

2. Proposed solution: OKV Nigeria Payroll & HR Management System

We propose the **Enterprise plan** (unlimited employees and Users, all 7 role types, full Reports, advanced backup, priority support and dedicated onboarding assistance). Below is how the system addresses each of your needs.

Your need	What the system provides
Organised staff records	Employee database and BioData with next-of-kin, bank and employment details.
Correct payslips	Pension, NHF and PAYE calculated with editable rates; payslips printed or emailed.
Confidentiality	Seven role types: the treasurer sees payroll, the administrator sees records, workers see only their own payslip.
Board-ready reports	Department reports, payroll cost breakdown and archived months.
Communication	Announcements by email to all staff or selected staff, with name personalisation; internal messages.

3. Who would use it, and what they would see

Person / team	Role in the system	Access
Church administrator (Admin)	Admin	Full access
Treasurer	Finance Manager / Accountant	Payroll calculation, payslips, loans, reports
HR volunteer	HR Officer	Employees, BioData, leave, announcements
Staff	Self-Service	Own payslip, loan, leave

4. Implementation plan

When	Activity	Outcome
Day 0	Start trial; set church name, logo, payroll month.	Branded workspace
Day 1–3	Import staff list; enter grade levels and allowances.	Records complete
Day 4–6	Parallel payroll and payslip test with the treasurer.	Verified figures
Day 7	Board-level walk-through; choose billing.	Decision
Week 2	Train administrator, treasurer and HR volunteer.	Team ready

We assume Grace Assembly can supply a staff list (name, department, bank details and pay components) in Excel; we will help convert it to the import format.

5. Investment

Option	Billing	Amount	Per month equivalent	You save
Enterprise A	Monthly	**₦35,000**	₦35,000	—
Enterprise B (recommended)	Every 6 months	**₦190,000**	₦31,667	₦20,000
Enterprise C	Yearly	**₦360,000**	₦30,000	₦60,000

Prices are the published rates at the date of this proposal and are in Nigerian Naira. There are no setup fees for the subscription.

Optional services (quote separately): training for church staff; help preparing the first board report.

6. What success looks like

- One trusted record for every paid worker.
- Correct, private payslips for all staff each month.
- The treasurer can answer board questions from archived months.
- Less administrative load on volunteers.

7. Terms and assumptions

- **Free trial.** Grace Assembly may start a 7-day free trial (no card required) and run payroll with real data before committing.
- **Payment.** Subscriptions are paid by bank transfer to the account shown in the app (Upgrade & Subscription), with a screenshot submitted for confirmation. Your plan activates once payment is confirmed.
- **Money-back guarantee.** If the service is not right for you, tell us within 30 days of your first payment for a full refund by bank transfer (typically 5–10 business days).
- **Renewal.** Renewals are by manual bank transfer; reminder emails are sent before the end of each period. Pricing shown is per billing period.
- **Data.** Your organisation’s data is kept separate from other organisations’ data. You can download a full backup at any time and request export or deletion of your data in line with the Privacy Policy.
- **Statutory calculations.** PAYE, pension, NHF and life-assurance calculations use the rates and bands configured in the system. Because Nigerian PAYE rules changed on 1 January 2026, we recommend your accountant verifies PAYE on each pay run until the system’s 2026 tax update is confirmed live. *(Remove or update this clause once the update ships.)*
- **Support.** Essential includes email support. Enterprise includes priority support and dedicated onboarding assistance.

8. Next steps

1. Confirm the plan and billing option above.
2. We create your account and start the 7-day trial with you, and import your staff list together.

3. Run one payroll side by side with your current method, archive it, and review the results with us.
4. Subscribe by bank transfer and submit the receipt in the app; your plan is confirmed, and we train your team.

PROPOSAL 3 • ENTERPRISE PLAN • SAMPLE (FICTIONAL CLIENT)

Prepared for: Bright Future Academy (sample)

Prepared by OKV Technology Consults | Date: [Date] | Valid for 14 days

Proposal 3 — Payroll and staff management for a private school

1. Our understanding of your situation

Bright Future Academy has 46 staff: teachers, administrators, drivers, cleaners and security. Salaries include allowances by grade level, and teachers sometimes take loans or request leave during term. The bursar prepares payroll in Excel and often recalculates after late changes.

- Grade-level pay and allowances need consistent calculation.
- Leave requests and loans are hard to follow across a term.
- The proprietor needs clear payroll reports for planning.

2. Proposed solution: OKV Nigeria Payroll & HR Management System

We propose the **Enterprise plan** (unlimited employees and Users, all 7 role types, full Reports, advanced backup, priority support and dedicated onboarding assistance). Below is how the system addresses each of your needs.

Your need	What the system provides
Grade-level salary structure	Basic, housing, transport and other allowances per employee; grade levels GL 01–GL 13 and Director available.
Leave and loans	Leave register with approval statuses (annual, sick, maternity, study and more); loan register with balances.
Teacher self-service	Teachers see their payslip, loan balance and leave status, and can request leave.
Department reports	Headcount, gross, deductions and net by department.
Bulk payslips	Download a department’s or the whole school’s payslips at once.

3. Who would use it, and what they would see

Person / team	Role in the system	Access
Proprietor (Admin)	Admin	Full access
Bursar	Payroll Officer + Finance Manager	Payroll, payslips, loans, reports
Admin officer	HR Manager	Employees, BioData, leave, reports
Teachers and staff	Self-Service	Own payslip, loan, leave

4. Implementation plan

When	Activity	Outcome
Day 0	Start trial; set school details and term payroll month.	Account live
Day 1–2	Import 46 staff with grades and allowances.	Records complete
Day 3–5	Parallel payroll; test leave approval and loan deductions.	Validated workflow
Day 7	Review with proprietor and bursar; choose billing.	Decision
Before next term	Train staff on My Portal.	Self-service ready

We assume Bright Future Academy can supply a staff list (name, department, bank details and pay components) in Excel; we will help convert it to the import format.

5. Investment

Option	Billing	Amount	Per month equivalent	You save
Enterprise A	Every 6 months	**₦190,000**	₦31,667	₦20,000
Enterprise B (recommended)	Yearly	**₦360,000**	₦30,000	₦60,000

Prices are the published rates at the date of this proposal and are in Nigerian Naira. There are no setup fees for the subscription.

Optional services (quote separately): teacher orientation session; mid-term review call.

6. What success looks like

- Payroll completed reliably at each month-end, including during term busy periods.
- Leave and loans visible to management and to each teacher.
- Payroll cost reports for the proprietor without extra spreadsheets.

7. Terms and assumptions

- **Free trial.** Bright Future Academy may start a 7-day free trial (no card required) and run payroll with real data before committing.
- **Payment.** Subscriptions are paid by bank transfer to the account shown in the app (Upgrade & Subscription), with a screenshot submitted for confirmation. Your plan activates once payment is confirmed.
- **Money-back guarantee.** If the service is not right for you, tell us within 30 days of your first payment for a full refund by bank transfer (typically 5–10 business days).
- **Renewal.** Renewals are by manual bank transfer; reminder emails are sent before the end of each period. Pricing shown is per billing period.
- **Data.** Your organisation’s data is kept separate from other organisations’ data. You can download a full backup at any time and request export or deletion of your data in line with the Privacy Policy.
- **Statutory calculations.** PAYE, pension, NHF and life-assurance calculations use the rates and bands configured in the system. Because Nigerian PAYE rules changed on 1 January 2026, we recommend your accountant verifies PAYE on each pay run until the system’s 2026 tax update is confirmed live. *(Remove or update this clause once the update ships.)*
- **Support.** Essential includes email support. Enterprise includes priority support and dedicated onboarding assistance.

8. Next steps

1. Confirm the plan and billing option above.
2. We create your account and start the 7-day trial with you, and import your staff list together.
3. Run one payroll side by side with your current method, archive it, and review the results with us.

4. Subscribe by bank transfer and submit the receipt in the app; your plan is confirmed, and we train your team.

PROPOSAL 4 • ENTERPRISE PLAN • SAMPLE (FICTIONAL CLIENT)

Prepared for: Hope Horizons Foundation (sample)

Prepared by OKV Technology Consults | Date: [Date] | Valid for 14 days

Proposal 4 — Audit-ready payroll records for an NGO

1. Our understanding of your situation

Hope Horizons runs donor-funded programmes with 58 staff across head office and field locations. Donors and auditors require consistent records of staff costs each month, while field offices often work with poor connectivity.

- Staff-cost records must be consistent and easy to produce for audits.
- Field staff work with weak internet.
- Different teams need different levels of access.

2. Proposed solution: OKV Nigeria Payroll & HR Management System

We propose the **Enterprise plan** (unlimited employees and Users, all 7 role types, full Reports, advanced backup, priority support and dedicated onboarding assistance). Below is how the system addresses each of your needs.

Your need	What the system provides
Permanent monthly record	Confirm & Archive preserves each month’s payroll for every employee, unchanged by later edits.
Department reports	Printable department payroll reports and workforce summaries by department (programme, finance, operations).
Works in the field	Offline-first PWA on laptop, tablet or phone; syncs when connected.
Controlled access	Seven roles, including a Compliance Officer with access to statutory set-up and reports.
Backups	Full JSON and CSV backups on demand for your records.

3. Who would use it, and what they would see

Person / team	Role in the system	Access
Finance lead (Admin)	Admin	Full access
HR manager	HR Manager	Employees, BioData, leave, reports
Payroll accountant	Payroll Officer	Payroll, payslips, statutory registers
Compliance officer	Compliance Officer	Reports, statutory set-up, settings
Programme staff	Self-Service	Own payslip and leave

4. Implementation plan

When	Activity	Outcome
Week 1	Trial; import head-office staff; configure roles.	Core team live
Week 2	Parallel payroll for one month; archive and compare.	Verified
Week 3	Add field teams; train users.	All staff loaded
Week 4	Produce first archived report pack; review with auditors' expectations.	Audit-ready pack

We assume Hope Horizons can supply a staff list (name, department, bank details and pay components) in Excel; we will help convert it to the import format.

5. Investment

Option	Billing	Amount	Per month equivalent	You save
Enterprise A	Every 6 months	**₦190,000**	₦31,667	₦20,000
Enterprise B (recommended)	Yearly	**₦360,000**	₦30,000	₦60,000

Prices are the published rates at the date of this proposal and are in Nigerian Naira. There are no setup fees for the subscription.

Optional services (quote separately): remote training for regional offices; report-format workshop.

6. What success looks like

- Monthly payroll records that stay consistent for audits.
- Field offices able to work through connectivity gaps.
- Clear separation of duties between HR, payroll and compliance.

7. Terms and assumptions

- **Free trial.** Hope Horizons may start a 7-day free trial (no card required) and run payroll with real data before committing.
- **Payment.** Subscriptions are paid by bank transfer to the account shown in the app (Upgrade & Subscription), with a screenshot submitted for confirmation. Your plan activates once payment is confirmed.
- **Money-back guarantee.** If the service is not right for you, tell us within 30 days of your first payment for a full refund by bank transfer (typically 5–10 business days).
- **Renewal.** Renewals are by manual bank transfer; reminder emails are sent before the end of each period. Pricing shown is per billing period.
- **Data.** Your organisation's data is kept separate from other organisations' data. You can download a full backup at any time and request export or deletion of your data in line with the Privacy Policy.
- **Statutory calculations.** PAYE, pension, NHF and life-assurance calculations use the rates and bands configured in the system. Because Nigerian PAYE rules changed on 1 January 2026, we recommend your accountant verifies PAYE on each pay run until the system's 2026 tax update is confirmed live. *(Remove or update this clause once the update ships.)*
- **Support.** Essential includes email support. Enterprise includes priority support and dedicated onboarding assistance.

8. Next steps

1. Confirm the plan and billing option above.
2. We create your account and start the 7-day trial with you, and import your staff list together.
3. Run one payroll side by side with your current method, archive it, and review the results with us.

PROPOSAL 5 • ENTERPRISE PLAN • SAMPLE (FICTIONAL CLIENT)

Prepared for: CarePoint Medical Centre (sample)

Prepared by OKV Technology Consults | Date: [Date] | Valid for 14 days

Proposal 5 — Payroll for a clinic with shift and overtime pay

1. Our understanding of your situation

CarePoint has 41 staff including doctors, nurses, lab scientists, pharmacists, front-desk and support staff. Overtime and shift allowances vary month to month, and several staff have salary advances or loans.

- Variable pay (overtime, bonus) changes every month.
- Loan repayments must be deducted and tracked accurately.
- Leave coverage must be planned without disrupting clinic operations.

2. Proposed solution: OKV Nigeria Payroll & HR Management System

We propose the **Enterprise plan** (unlimited employees and Users, all 7 role types, full Reports, advanced backup, priority support and dedicated onboarding assistance). Below is how the system addresses each of your needs.

Your need	What the system provides
Monthly variable pay	Payroll Input for overtime, bonus and loan deductions per employee; Payroll Calculation updates live.
Loans	Loan register with amount, monthly deduction and balance; staff see their own balance.
Leave planning	Leave register with statuses and dates; dashboard shows staff on approved leave and pending requests.
Confidential payslips	Payslips emailed privately to each staff member.
Offline reliability	Payroll continues through power or network interruptions.

3. Who would use it, and what they would see

Person / team	Role in the system	Access
Hospital administrator (Admin)	Admin	Full access
Accountant	Finance Manager / Accountant	Payroll calculation, payslips, loans, reports
HR officer	HR Officer	Employees, BioData, leave
Clinical and support staff	Self-Service	Own payslip, loan, leave

4. Implementation plan

When	Activity	Outcome
Day 0	Start trial; configure company and payroll month.	Workspace ready
Day 1–2	Import staff; add departments (Clinical, Pharmacy, Lab, Admin).	Records loaded
Day 3–5	Enter overtime and loans; run parallel payroll.	Figures verified
Day 7	Review and billing decision.	Go-live
Week 2	Train accountant, HR officer and unit heads.	Team ready

We assume CarePoint can supply a staff list (name, department, bank details and pay components) in Excel; we will help convert it to the import format.

5. Investment

Option	Billing	Amount	Per month equivalent	You save
Enterprise A	Monthly	**₦35,000**	₦35,000	—
Enterprise B (recommended)	Every 6 months	**₦190,000**	₦31,667	₦20,000
Enterprise C	Yearly	**₦360,000**	₦30,000	₦60,000

Prices are the published rates at the date of this proposal and are in Nigerian Naira. There are no setup fees for the subscription.

Optional services (quote separately): shift-pay workflow workshop.

6. What success looks like

- Overtime and loans handled in one place each month.
- Leave and payroll visible together to the administrator.
- Staff receive accurate, private payslips.

7. Terms and assumptions

- **Free trial.** CarePoint may start a 7-day free trial (no card required) and run payroll with real data before committing.
- **Payment.** Subscriptions are paid by bank transfer to the account shown in the app (Upgrade & Subscription), with a screenshot submitted for confirmation. Your plan activates once payment is confirmed.
- **Money-back guarantee.** If the service is not right for you, tell us within 30 days of your first payment for a full refund by bank transfer (typically 5–10 business days).
- **Renewal.** Renewals are by manual bank transfer; reminder emails are sent before the end of each period. Pricing shown is per billing period.
- **Data.** Your organisation’s data is kept separate from other organisations’ data. You can download a full backup at any time and request export or deletion of your data in line with the Privacy Policy.
- **Statutory calculations.** PAYE, pension, NHF and life-assurance calculations use the rates and bands configured in the system. Because Nigerian PAYE rules changed on 1 January 2026, we recommend your accountant verifies PAYE on each pay run until the system’s 2026 tax update is confirmed live. *(Remove or update this clause once the update ships.)*
- **Support.** Essential includes email support. Enterprise includes priority support and dedicated onboarding assistance.

8. Next steps

1. Confirm the plan and billing option above.
2. We create your account and start the 7-day trial with you, and import your staff list together.

3. Run one payroll side by side with your current method, archive it, and review the results with us.
4. Subscribe by bank transfer and submit the receipt in the app; your plan is confirmed, and we train your team.

PROPOSAL 6 • ENTERPRISE PLAN • SAMPLE (FICTIONAL CLIENT)

Prepared for: Palmview Suites & Resort (sample)

Prepared by OKV Technology Consults | Date: [Date] | Valid for 14 days

Proposal 6 — Payroll for a hotel and resort

1. Our understanding of your situation

Palmview employs 82 staff across front office, housekeeping, kitchen, restaurant, maintenance and security. Seasonal hiring and frequent turnover make staff records and payroll hard to keep current.

- Staff join and leave frequently; records become outdated.
- Overtime and allowances vary across departments.
- Management needs departmental payroll cost visibility.

2. Proposed solution: OKV Nigeria Payroll & HR Management System

We propose the **Enterprise plan** (unlimited employees and Users, all 7 role types, full Reports, advanced backup, priority support and dedicated onboarding assistance). Below is how the system addresses each of your needs.

Your need	What the system provides
Fast onboarding of staff	Add employees individually or in bulk by CSV; mark leavers inactive so they drop out of payroll.
Department visibility	Dashboard and reports by department; top earners; headcount.
Bulk payslips	Whole-company and per-department payslip downloads.
Access for managers	Department heads can have HR Officer access; owners retain full control.
Data protection	Back up after each pay run; restore if needed.

3. Who would use it, and what they would see

Person / team	Role in the system	Access
General manager (Admin)	Admin	Full access
Accountant	Payroll Officer	Payroll, payslips, statutory registers, reports
HR manager	HR Manager	Employees, BioData, leave, reports
Department heads	HR Officer	Employees, BioData, leave
Staff	Self-Service	Own payslip and leave

4. Implementation plan

When	Activity	Outcome
Week 1	Trial; import current staff; configure departments.	Staff loaded
Week 2	Parallel payroll; train accountant and HR.	Verified
Week 3	Add department heads; test leave flow.	Managers enabled
Week 4	First live payroll; archive; backup.	Live

We assume Palmview can supply a staff list (name, department, bank details and pay components) in Excel; we will help convert it to the import format.

5. Investment

Option	Billing	Amount	Per month equivalent	You save
Enterprise A	Every 6 months	**₦190,000**	₦31,667	₦20,000
Enterprise B (recommended)	Yearly	**₦360,000**	₦30,000	₦60,000

Prices are the published rates at the date of this proposal and are in Nigerian Naira. There are no setup fees for the subscription.

Optional services (quote separately): seasonal-staff onboarding guide.

6. What success looks like

- Current staff records at all times.
- Payroll cost by department at a glance.
- Reduced month-end workload for accounts and HR.

7. Terms and assumptions

- **Free trial.** Palmview may start a 7-day free trial (no card required) and run payroll with real data before committing.
- **Payment.** Subscriptions are paid by bank transfer to the account shown in the app (Upgrade & Subscription), with a screenshot submitted for confirmation. Your plan activates once payment is confirmed.
- **Money-back guarantee.** If the service is not right for you, tell us within 30 days of your first payment for a full refund by bank transfer (typically 5–10 business days).
- **Renewal.** Renewals are by manual bank transfer; reminder emails are sent before the end of each period. Pricing shown is per billing period.
- **Data.** Your organisation’s data is kept separate from other organisations’ data. You can download a full backup at any time and request export or deletion of your data in line with the Privacy Policy.
- **Statutory calculations.** PAYE, pension, NHF and life-assurance calculations use the rates and bands configured in the system. Because Nigerian PAYE rules changed on 1 January 2026, we recommend your accountant verifies PAYE on each pay run until the system’s 2026 tax update is confirmed live. *(Remove or update this clause once the update ships.)*
- **Support.** Essential includes email support. Enterprise includes priority support and dedicated onboarding assistance.

8. Next steps

1. Confirm the plan and billing option above.
2. We create your account and start the 7-day trial with you, and import your staff list together.
3. Run one payroll side by side with your current method, archive it, and review the results with us.
4. Subscribe by bank transfer and submit the receipt in the app; your plan is confirmed, and we train your team.

PROPOSAL 7 • ENTERPRISE PLAN • SAMPLE (FICTIONAL CLIENT)

Prepared for: SwiftHaul Logistics (sample)

Prepared by OKV Technology Consults | Date: [Date] | Valid for 14 days

Proposal 7 — Payroll for a logistics and haulage company

1. Our understanding of your situation

SwiftHaul has 120 employees: drivers, loaders, dispatchers, mechanics and office staff, working from several depots. Pay includes trip allowances, overtime and staff loans. The finance team spends several days each month on payroll.

- Large headcount with varied allowances.
- Drivers and depot staff need payslips without coming to head office.
- Loans and overtime need accurate deductions and records.

2. Proposed solution: OKV Nigeria Payroll & HR Management System

We propose the **Enterprise plan** (unlimited employees and Users, all 7 role types, full Reports, advanced backup, priority support and dedicated onboarding assistance). Below is how the system addresses each of your needs.

Your need	What the system provides
Scale	Enterprise supports unlimited employees and users, with CSV import for initial load and monthly updates.
Variable pay	Overtime, bonus and loan inputs updated monthly; bulk CSV import for Payroll Input.
Payslips without head-office visits	Payslips emailed to staff or viewed in My Portal on a phone.
Depot-level visibility	Reports by department; headcount and cost views.
Reliability	Offline-first for depots with poor connectivity.

3. Who would use it, and what they would see

Person / team	Role in the system	Access
Finance director (Admin)	Admin	Full access
Payroll team	Payroll Officer	Payroll input and calculation, payslips, statutory registers
HR manager	HR Manager	Employees, BioData, leave, reports
Depot supervisors	HR Officer	Employees, BioData, leave
Drivers and staff	Self-Service	Own payslip, loan, leave

4. Implementation plan

When	Activity	Outcome
Week 1	Trial; bulk-import 120 staff via CSV; configure roles.	Staff loaded
Week 2	Import first payroll inputs; parallel payroll; archive.	Verified
Week 3	Enable My Portal for drivers and depot staff; train supervisors.	Self-service live
Week 4	First live payroll and backup.	Live

We assume SwiftHaul can supply a staff list (name, department, bank details and pay components) in Excel; we will help convert it to the import format.

5. Investment

Option	Billing	Amount	Per month equivalent	You save
Enterprise A	Every 6 months	**₦190,000**	₦31,667	₦20,000
Enterprise B (recommended)	Yearly	**₦360,000**	₦30,000	₦60,000

Prices are the published rates at the date of this proposal and are in Nigerian Naira. There are no setup fees for the subscription.

Optional services (quote separately): bulk-data preparation support; on-site training at main depot.

6. What success looks like

- Payroll days cut from spreadsheet wrangling to review and approval.
- Payslips reach staff without a trip to head office.
- A clear monthly archive across all depots.

7. Terms and assumptions

- **Free trial.** SwiftHaul may start a 7-day free trial (no card required) and run payroll with real data before committing.
- **Payment.** Subscriptions are paid by bank transfer to the account shown in the app (Upgrade & Subscription), with a screenshot submitted for confirmation. Your plan activates once payment is confirmed.
- **Money-back guarantee.** If the service is not right for you, tell us within 30 days of your first payment for a full refund by bank transfer (typically 5–10 business days).
- **Renewal.** Renewals are by manual bank transfer; reminder emails are sent before the end of each period. Pricing shown is per billing period.
- **Data.** Your organisation’s data is kept separate from other organisations’ data. You can download a full backup at any time and request export or deletion of your data in line with the Privacy Policy.
- **Statutory calculations.** PAYE, pension, NHF and life-assurance calculations use the rates and bands configured in the system. Because Nigerian PAYE rules changed on 1 January 2026, we recommend your accountant verifies PAYE on each pay run until the system’s 2026 tax update is confirmed live. *(Remove or update this clause once the update ships.)*
- **Support.** Essential includes email support. Enterprise includes priority support and dedicated onboarding assistance.

8. Next steps

1. Confirm the plan and billing option above.
2. We create your account and start the 7-day trial with you, and import your staff list together.
3. Run one payroll side by side with your current method, archive it, and review the results with us.

PROPOSAL 8 • PARTNERSHIP • SAMPLE (FICTIONAL CLIENT)

Prepared for: Adeola & Partners, Chartered Accountants

Prepared by OKV Technology Consults | Date: [Date] | Valid for 14 days

Proposal 8 — Referral and Reseller Partnership

1. Why this partnership

Adeola & Partners advises small and medium-sized clients who need reliable payroll but cannot justify costly software. OKV Technology Consults offers a Nigerian payroll and HR system built for exactly these clients: offline-capable, priced in Naira and simple enough for a client's own team to run. A partnership lets you add a recurring-value service to your advice without building software.

2. What your clients get

- PAYE, pension, NHF and life-assurance calculations with editable rates, plus one-click payslips (individual, department, company-wide).
- Employee records, BioData, leave and loan registers, reports, and role-based access for up to seven role types.
- Offline-first installable app (Android, iPhone, Windows, Mac), a 7-day free trial and a 30-day money-back guarantee.

3. Two partnership models (choose one or combine)

	Referral partner	Reseller / managed-service partner
How it works	You introduce clients; they subscribe directly with OKV.	You introduce clients and help run their payroll as part of your service.
Your benefit	[Referral commission or client discount — agree in writing]	[Partner discount / your own service fee on top of the client's subscription — agree in writing]
Our support	Demo, onboarding and support for referred clients.	Partner training, priority support, co-branded onboarding material.
Best plan for clients	Essential (≤ 20 staff) or Enterprise.	Usually Enterprise for clients with more staff or several users.
Commitment	None beyond making the introduction.	Agreed service levels and a short partner agreement.

Commission and discount figures are deliberately left blank in this sample; set them to match your business and record them in the partner agreement.

4. Published client pricing (for your planning)

Plan	Monthly	Every 6 months	Yearly	Fits
Essential	₦15,000	₦80,000	₦150,000	Up to 20 employees; 1 Admin + 3 Users
Enterprise	₦35,000	₦190,000	₦360,000	Unlimited employees and Users; full Reports; priority support; onboarding

5. Implementation plan

When	Activity	Outcome
Week 1	Partner demo and Q&A; choose partnership model; sign short agreement.	Agreement and referral link.
Week 2	Your team trains on the demo and a trial organisation; receive leaflet and demo link.	Team confident with the system.
Week 3–4	First three client pilots with onboarding support from OKV.	Three clients running payroll.
Month 2 onward	Monthly review of pipeline and support tickets; add client cohorts.	Predictable recurring service.

6. Terms and next steps

- Partner terms (commission/discount, payment timing, exclusivity, confidentiality, client ownership of data) are set out in a separate short agreement.
- Clients remain the owners and controllers of their own data; clients are subject to the Terms of Service, Privacy Policy and Refund Policy.
- Statutory calculations: because Nigerian PAYE rules changed on 1 January 2026, your team should verify PAYE on client pay runs until the 2026 update is confirmed live.

1. Choose your partnership model.
2. Book the partner training session.
3. Nominate three pilot clients.

PROPOSAL 9 • ESSENTIAL PLAN • SAMPLE (FICTIONAL CLIENT)

Prepared for: NovaByte Technologies (sample)

Prepared by OKV Technology Consults | Date: [Date] | Valid for 14 days

Proposal 9 — Payroll for a growing tech startup (trial pilot)

1. Our understanding of your situation

NovaByte has 12 staff and expects to double within a year. The founder handles payroll personally and wants a proper system before headcount grows, but prefers to start small with no long commitment.

- Payroll currently done in a spreadsheet by the founder.
- Needs professional payslips for staff and investors.
- Wants to start on a monthly plan and scale up later.

2. Proposed solution: OKV Nigeria Payroll & HR Management System

We propose the **Essential plan** (up to 20 employees, 1 Admin + up to 3 staff Users). Below is how the system addresses each of your needs.

Your need	What the system provides
Start small, scale later	Essential covers up to 20 employees and 1 Admin + 3 Users; upgrading to Enterprise later keeps all data.
Professional payslips	Branded payslips with company logo and details.
Self-service	Staff can view their own payslip and request leave.
Low commitment	7-day free trial, monthly billing option and a 30-day money-back guarantee.

3. Who would use it, and what they would see

Person / team	Role in the system	Access
Founder (Admin)	Admin	Full access
Office manager	HR Officer	Employees, BioData, leave
Team members	Self-Service	Own payslip and leave

4. Implementation plan

When	Activity	Outcome
Day 0	Start trial; upload logo; set payroll month.	Account live
Day 1	Add 12 employees; BioData.	Records complete
Day 2–4	Run payroll; print payslips; try My Portal.	Confidence
Day 7	Choose monthly or yearly billing.	Decision

We assume NovaByte can supply a staff list (name, department, bank details and pay components) in Excel; we will help convert it to the import format.

5. Investment

Option	Billing	Amount	Per month equivalent	You save
Essential A (recommended)	Monthly	**₦15,000**	₦15,000	—
Essential B	Every 6 months	**₦80,000**	₦13,333	₦10,000
Essential C	Yearly	**₦150,000**	₦12,500	₦30,000

Prices are the published rates at the date of this proposal and are in Nigerian Naira. There are no setup fees for the subscription.

6. What success looks like

- A proper payroll process in place before growth.
- Payslips and records the founder can hand to an accountant or investor.
- Clear upgrade path as the team grows past 20.

7. Terms and assumptions

- **Free trial.** NovaByte may start a 7-day free trial (no card required) and run payroll with real data before committing.
- **Payment.** Subscriptions are paid by bank transfer to the account shown in the app (Upgrade & Subscription), with a screenshot submitted for confirmation. Your plan activates once payment is confirmed.
- **Money-back guarantee.** If the service is not right for you, tell us within 30 days of your first payment for a full refund by bank transfer (typically 5–10 business days).
- **Renewal.** Renewals are by manual bank transfer; reminder emails are sent before the end of each period. Pricing shown is per billing period.
- **Data.** Your organisation’s data is kept separate from other organisations’ data. You can download a full backup at any time and request export or deletion of your data in line with the Privacy Policy.
- **Statutory calculations.** PAYE, pension, NHF and life-assurance calculations use the rates and bands configured in the system. Because Nigerian PAYE rules changed on 1 January 2026, we recommend your accountant verifies PAYE on each pay run until the system’s 2026 tax update is confirmed live. *(Remove or update this clause once the update ships.)*
- **Support.** Essential includes email support. Enterprise includes priority support and dedicated onboarding assistance.

8. Next steps

1. Confirm the plan and billing option above.
2. We create your account and start the 7-day trial with you, and import your staff list together.
3. Run one payroll side by side with your current method, archive it, and review the results with us.
4. Subscribe by bank transfer and submit the receipt in the app; your plan is confirmed, and we train your team.

PROPOSAL 10 • ENTERPRISE PLAN • SAMPLE (FICTIONAL CLIENT)

Prepared for: Kingsley Foods & Beverages Ltd (sample)

Prepared by OKV Technology Consults | Date: [Date] | Valid for 14 days

Proposal 10 — Phased payroll rollout for a manufacturing company

1. Our understanding of your situation

Kingsley Foods employs 260 people across production, warehouse, quality control, sales and head office. Payroll is run by a four-person team using linked spreadsheets that are fragile and slow to reconcile. The company wants a controlled move to a system, not a risky overnight switch.

- Large headcount with many departments, grades and allowances.
- Reconciliation of spreadsheets takes days and is error-prone.
- Management wants a controlled, low-risk transition.

2. Proposed solution: OKV Nigeria Payroll & HR Management System

We propose the **Enterprise plan** (unlimited employees and Users, all 7 role types, full Reports, advanced backup, priority support and dedicated onboarding assistance). Below is how the system addresses each of your needs.

Your need	What the system provides
Scale and structure	Unlimited employees and users; department and grade structure; CSV import and export for every module.
Phased rollout	Start with head office and one plant, run parallel, then expand to all sites.
Control and audit trail	Roles for payroll, HR, finance and compliance; monthly archive of every pay run; full backups.
Reporting	Department payroll reports, workforce summaries and top-earner views.
Dedicated onboarding	Enterprise includes dedicated onboarding assistance and priority support.

3. Who would use it, and what they would see

Person / team	Role in the system	Access
Finance director (Admin)	Admin	Full access
Payroll team (4)	Payroll Officer	Payroll input and calculation, payslips, statutory registers, reports
HR manager and officers	HR Manager / HR Officer	Employees, BioData, leave
Internal audit / compliance	Compliance Officer	Reports, statutory set-up, settings
Staff	Self-Service	Own payslip and leave

4. Implementation plan

When	Activity	Outcome
Month 1	Pilot: head office (about 40 staff) on trial; parallel payroll; archive.	Pilot verified
Month 2	Add first plant and warehouse; train supervisors; enable My Portal for volunteers.	Two sites live
Month 3	Add remaining sites; retire spreadsheets after final reconciliation.	All staff live
Ongoing	Quarterly review with OKV; backups after each pay run.	Stable operations

We assume Kingsley Foods can supply a staff list (name, department, bank details and pay components) in Excel; we will help convert it to the import format.

5. Investment

Option	Billing	Amount	Per month equivalent	You save
Enterprise A	Every 6 months	**₦190,000**	₦31,667	₦20,000
Enterprise B (recommended)	Yearly	**₦360,000**	₦30,000	₦60,000

Prices are the published rates at the date of this proposal and are in Nigerian Naira. There are no setup fees for the subscription.

Optional services (quote separately): on-site training and data-migration support; quarterly review workshops.

6. What success looks like

- A controlled move from spreadsheets with no big-bang risk.
- A consistent, archived record of every pay run.
- The payroll team spending time reviewing, not reconciling.

7. Terms and assumptions

- **Free trial.** Kingsley Foods may start a 7-day free trial (no card required) and run payroll with real data before committing.
- **Payment.** Subscriptions are paid by bank transfer to the account shown in the app (Upgrade & Subscription), with a screenshot submitted for confirmation. Your plan activates once payment is confirmed.
- **Money-back guarantee.** If the service is not right for you, tell us within 30 days of your first payment for a full refund by bank transfer (typically 5–10 business days).
- **Renewal.** Renewals are by manual bank transfer; reminder emails are sent before the end of each period. Pricing shown is per billing period.
- **Data.** Your organisation’s data is kept separate from other organisations’ data. You can download a full backup at any time and request export or deletion of your data in line with the Privacy Policy.
- **Statutory calculations.** PAYE, pension, NHF and life-assurance calculations use the rates and bands configured in the system. Because Nigerian PAYE rules changed on 1 January 2026, we recommend your accountant verifies PAYE on each pay run until the system’s 2026 tax update is confirmed live. *(Remove or update this clause once the update ships.)*
- **Support.** Essential includes email support. Enterprise includes priority support and dedicated onboarding assistance.

8. Next steps

1. Confirm the plan and billing option above.
2. We create your account and start the 7-day trial with you, and import your staff list together.
3. Run one payroll side by side with your current method, archive it, and review the results with us.

4. Subscribe by bank transfer and submit the receipt in the app; your plan is confirmed, and we train your team.
